HEALTHY LIFESTYLE

Simple Steps for a Healthier You

- Eat a balanced diet
- Be physically active
- Get enough sleep
- Stay hydrated
- Manage stress

Start Today for a Better Tomorrow!

Explanation:

I chose the topic of a healthy life style because maintaining good health is essential for a better quality of life. The design uses a light background to create a clean and calm appearance, while green and blue colours are used to represent health, freshness and positivity. Orange is added to highlight important text and make the design more engaging. I selected simple sans-serif fonts to ensure readability and clarity. The poster includes visual icons such as food, shoes water bottles and a clock to represent key healthy habits. These visuals help the viewer quickly understand the message. The layout is balanced with a proper spacing, making the content easy to read. Overall, the design follows the basic principles of simplicity, colour harmony and visual communication.

Presentation:

My poster is about promoting a healthy lifestyle. The main goal is to encourage people to adopt simple daily habits that improve their health. I used a clean and simple layout so the message is easy to understand. The colours green and blue represent health and freshness, while orange is used to highlight key information. I include icons like food, water and exercise to visually represent healthy activities. I used one to two fonts to keep the design neat and readable. The poster focuses on important habits such as eating a balances diet, staying active and managing stress.

Overall, my design follows the principles of balance, contrast and simplicity.
